

Add Royalty to your facades

Adorn them with

COPPER, BRASS, ZINC & TITANIUM

PRODUCT CATEGORY

Copper Wall: Red copper sheet, with metallic luster, let the building own characteristics of gradual change, as constantly-evolving life.

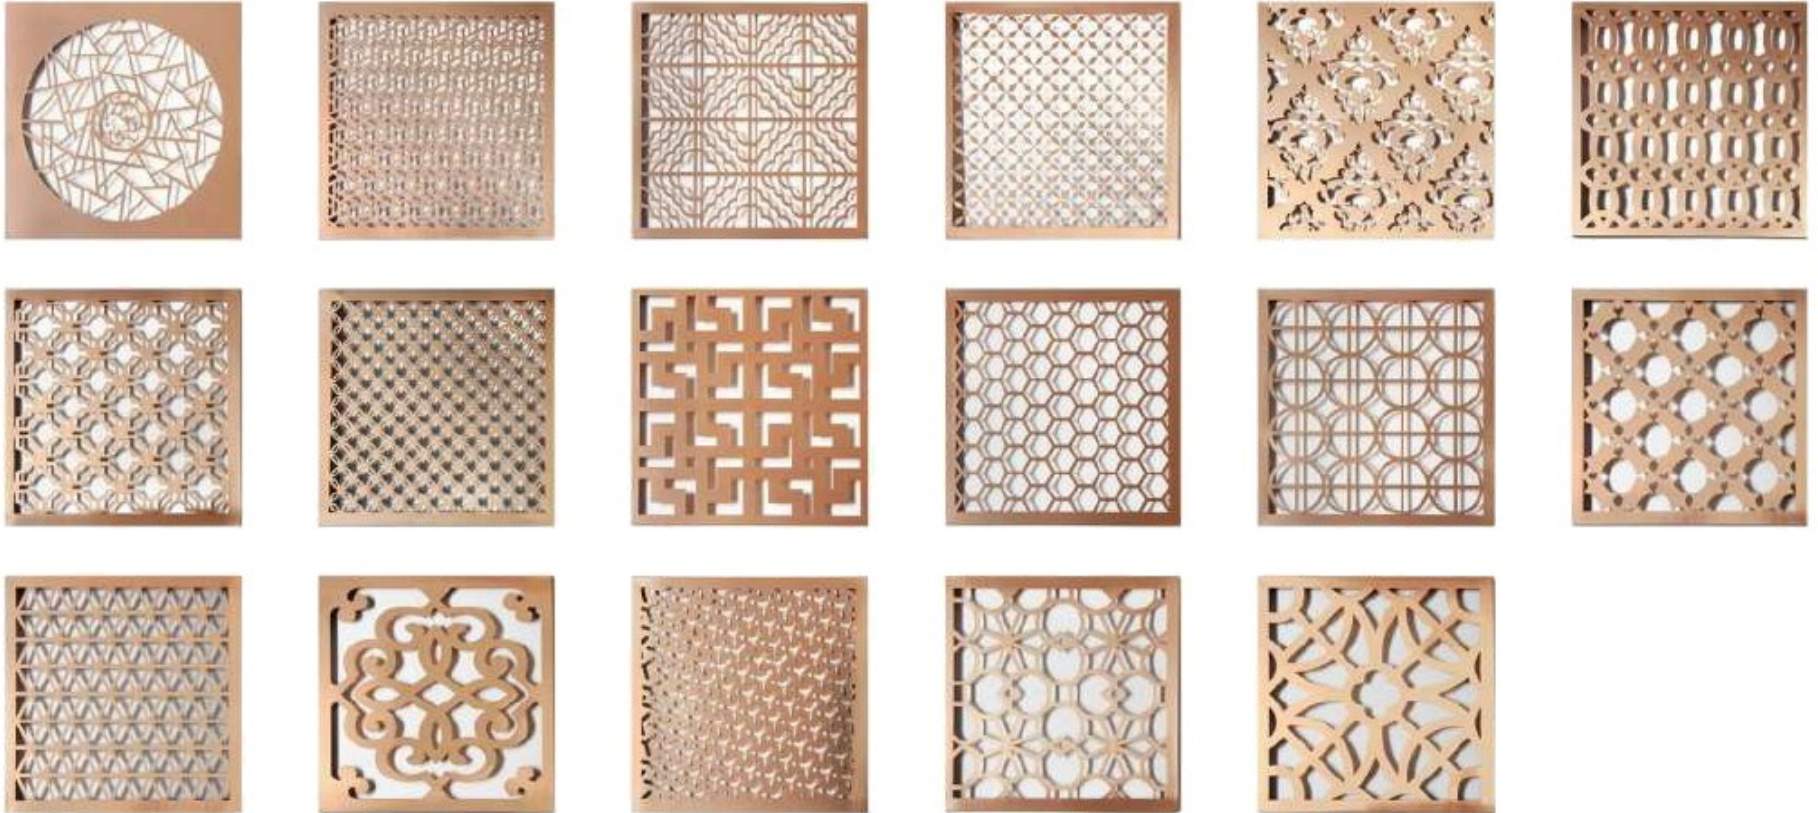

Brass Curtain Walls: Copper alloy is an exciting new wall material, it's durable and extremely vibrant. As one of the well-known materials, we now provide new brass products, a special copper alloy which is a mixture of copper and zinc. When exposed to natural climates, copper alloy would show their own unique character.

Patina Curtain Wall: In extreme corrosive atmosphere, a strong non – toxic protective layer would continuously form on copper exterior, commonly known as patina. Its chemical composition depends on the air condition in the region.
