

# The Pioneers

## of Motorized Openable Roofs

### Wonder roof of the century

Citadel offers you India's first & only complete louver roof & screen system manufactured indigenously. It has the ability to control the elements making it a natural choice over traditional coverings. With the flick of a switch, the louvers can be adjusted through 150 degrees to let the light & air in, to keep the sun out or to protect outdoor entertaining areas from rain.

This unique product enables maximizing the utility of any open space where it is installed.

The Louvered openable roof is being manufactured and installed by Citadel for the last 18 years and there are more than 1000 satisfied customers across India.

## Keeps you Cool in Summer, Warm in Winter & Dry in Rains.

### INNOVATIVE CONSTRUCTION :

Louvered openable has built in air pockets in the louvers due to its unique double skinned design. These unique air gaps provide extra insulation & create a gentle breeze on hot/stuffy days. It also prevents the sun's heat being transmitted to the underside, creating a cooler outdoor area.

### IDEAL FOR OUTDOOR AREAS :

Restaurants, patios, bungalows, terrace flats, courtyards, swimming pool areas & a host of other applications to enable you to better utilize the natural conditions.

### COMMERCIAL APPLICATION :

The system allows you all season use of outdoor open areas enhancing utility & productivity of your workshops, factories, restaurants, entertainment parks & theme parks etc.

### SPECIFICATIONS :

The product is constructed from steel frames & includes all required guttering & downpipes. Skyroof louvers are available in off white pre-coated steel.

### DURABLE TO LAST LIFE TIME :

The product is manufactured to withstand even the most severe weather conditions & give you a lifetime of service. It also has ability to resist squally winds.

### COMPLETE SERVICE :

The product is locally manufactured, ensuring the process from the initial planning to final installation to be fast, smooth & easy, with minimum efforts on your part. Our commitment to quality is evidenced through a one year warranty on workmanship. We manage the installation process from start to finish, to ensure minimal interruption & provide outstanding quality & service.

### This includes :

- Developing a quote that best suits your need.
- Planning a design that is appropriate to your living area requirement.
- Complete installation & consulting with you to ensure complete satisfaction.
- The product is constructed from steel frames & includes all required guttering & downpipes.
