

Citadel TERRACOTTA JALI

Citadel continues introduction of novel façade & roofing materials with Terracotta Jali for Aesthetic façade.

The advantages of the jali are as below:

- Gives an earthy & warm Exterior.
- Lends an aesthetic look to the exterior
- The coolness of Terracotta helps in reducing the temperature.
- Perforated Jali can be used as a classy screen system.
- The thickness of terracotta Jali ensures strength and minimal structural support.
- The areas of application are vast- entrance, facade, visual barrier, railings, feature wall & much much more

Applications of Citadel Terracotta Jali:

- Interior & Exterior

Sizes are available:

- Square Jali – 210 x 210 x 70
- Triangular Jali – 200 x 200 x 200 x 70
- Rectangular Jali – 220 x 100 x 70
- Brick Jali – 345 x 170 x 70
