

BAMBOOLIUM

**C239, Antop Hill Warehousing VIT College Road,
Sangam Nagar Wadala East. Mumbai – 400037 INDIA**

Introduction

- Citadel is pleased to introduce a novel product as an alternative to bamboo requirements of Architects and Designers for Indoor and Outdoor applications. Bamboolium is made up of round hollow aluminum and has powder coating in very natural looks of real bamboo.
- The visible bamboo joints, the non uniform coating and the natural colors make the product look exactly like real bamboo.
- Bamboolium is available in varying diameter – 40 mm, 60 mm and 80 mm. The lengths could be customised as well. It is available in 1mm, 2mm and 3mm thicknesses.

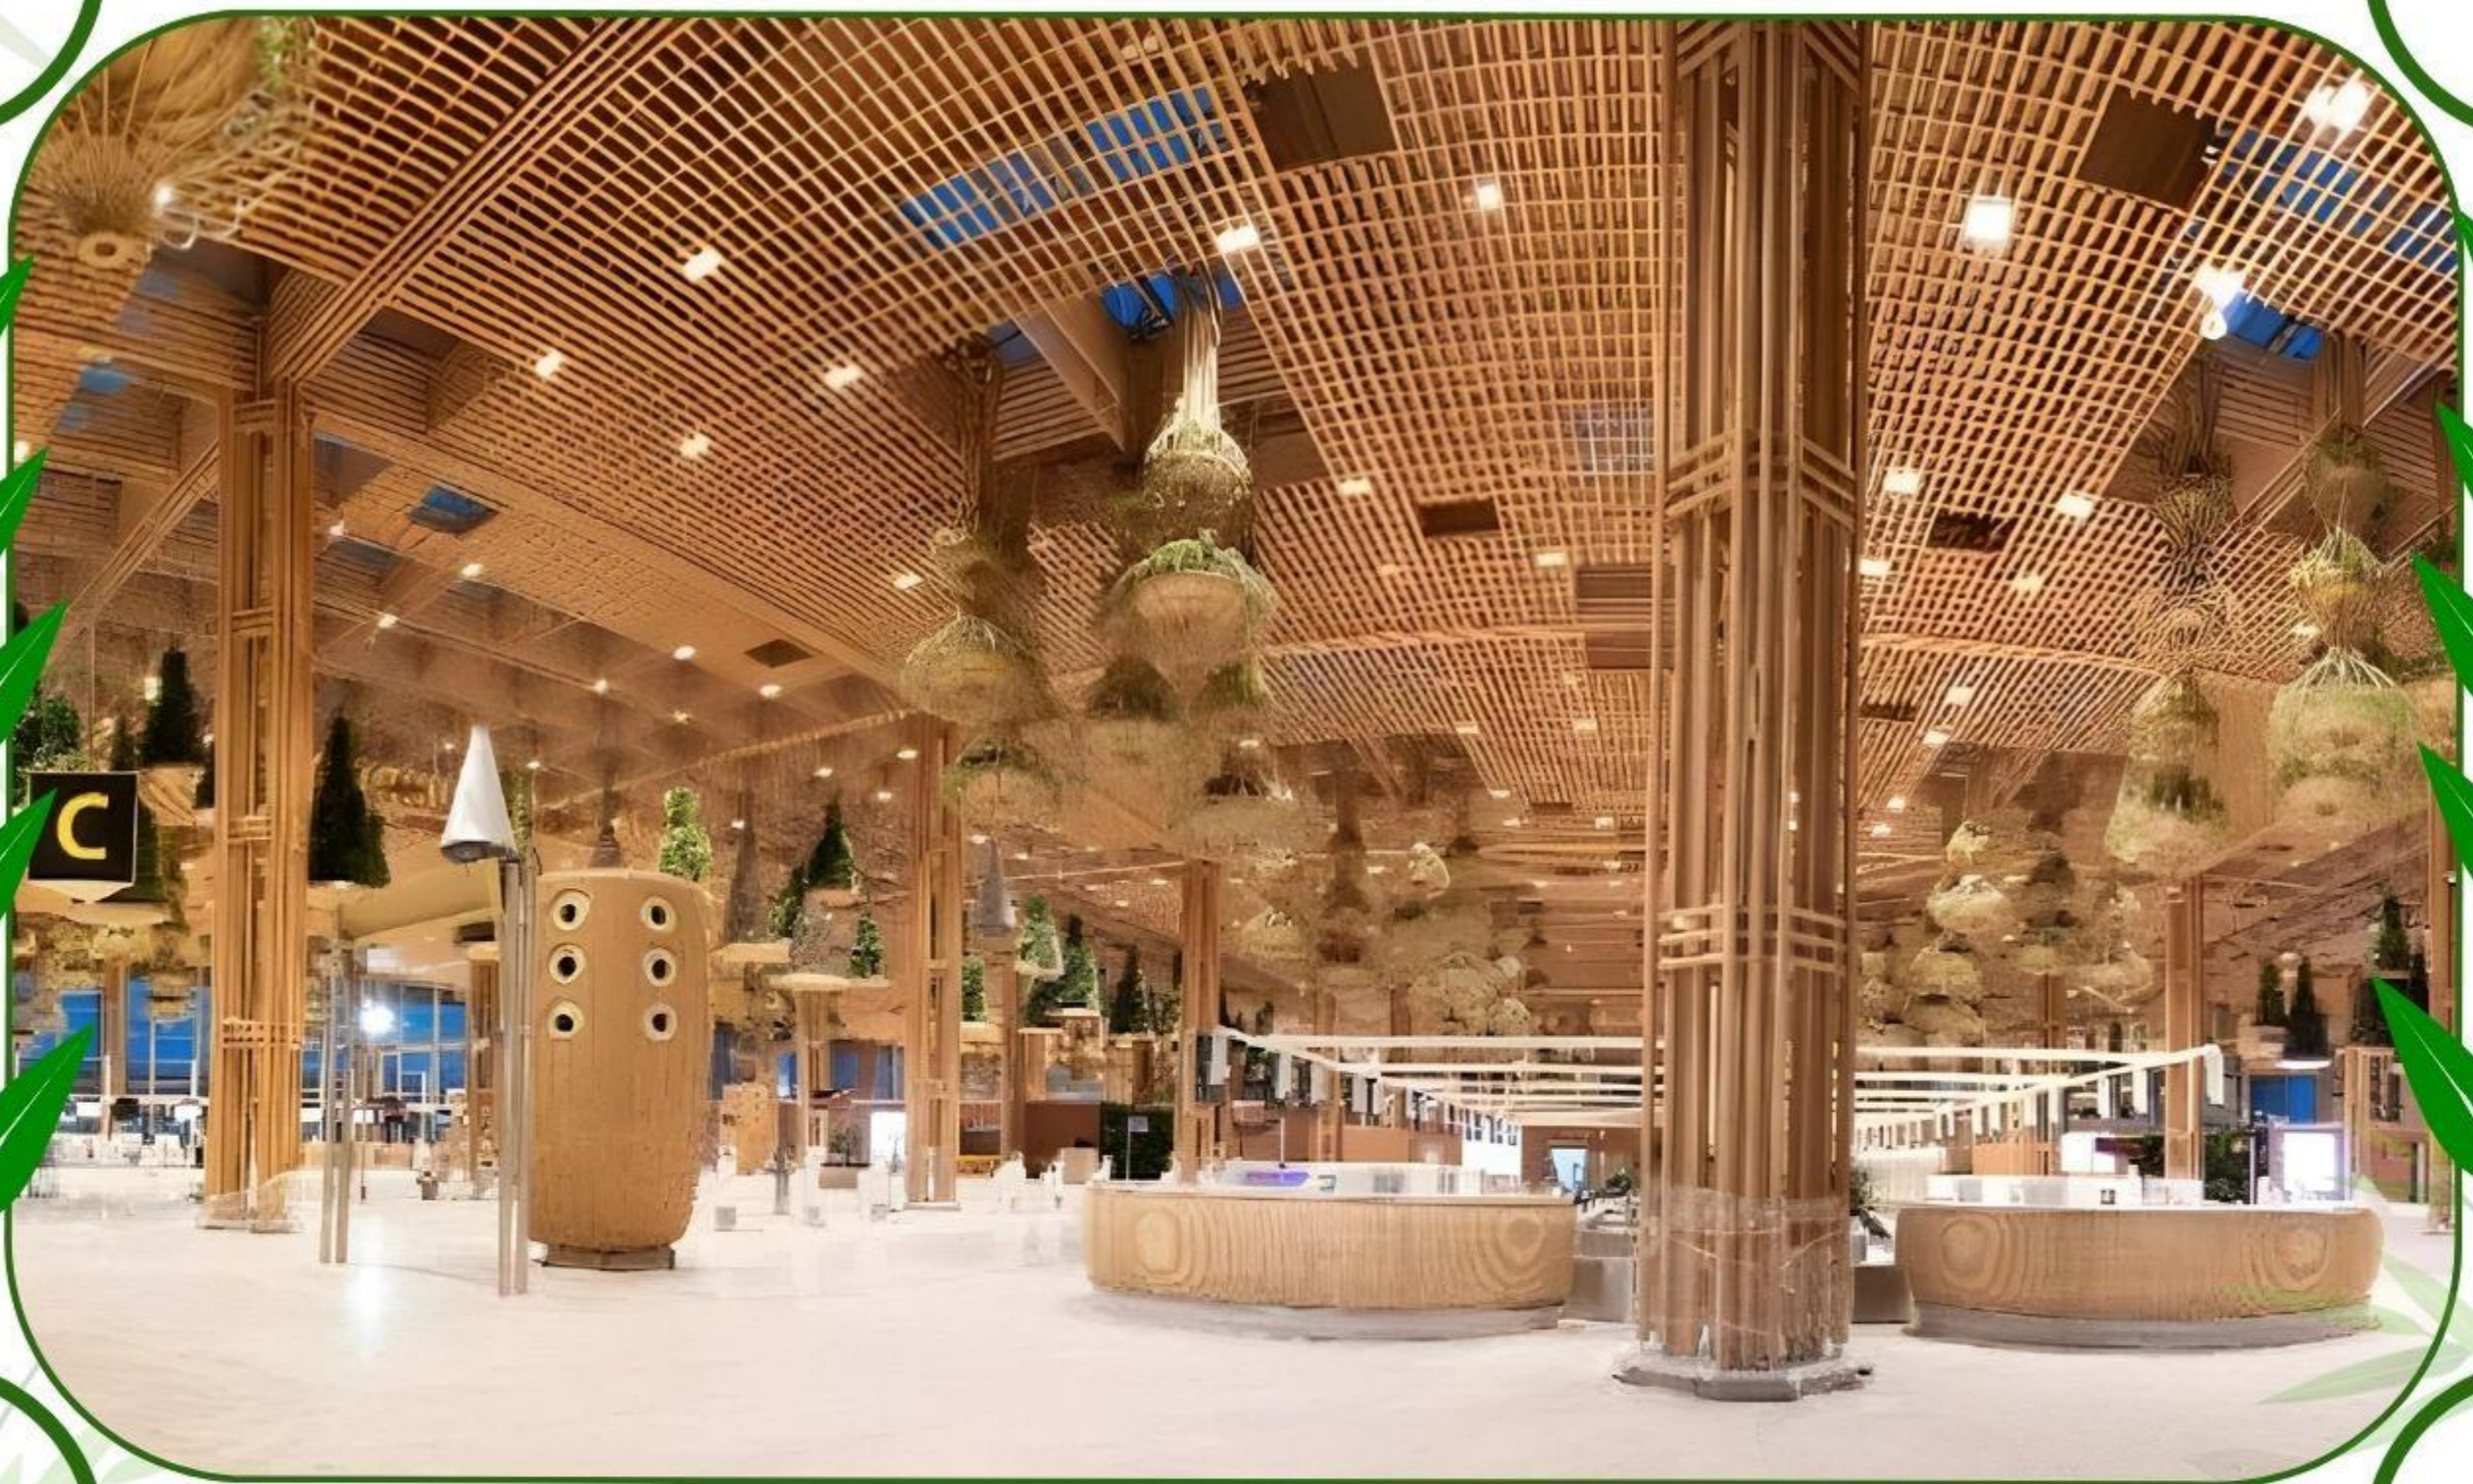

Features

- Aluminium is long lasting and will not get spoilt in outdoors.
- It will be powder coated with warranty of 10 years.
- It is easier to handle and install.
- The bamboos will be more uniform in size and shape.
- Will not spoil like natural bamboo in the external application.
- Aluminium is recyclable

Application Of Bamboolium

Facade

Real Bamboo Facade is much sought after however it is not a long lasting solution. Bamboolium has all the properties of an exterior material, yet has the natural color, veins and nodes of real Bamboo. Hence it can be used without any doubt on external façade. The fitting system is evolved with an SS base plate to give a strong and tested fitting mechanism.

Fitting Process

Table / Chair

Resorts, homes, restaurants, clubs require outdoor furniture. What better than to have a Bamboo look furniture made out of light aluminium. The final look is unimaginable as the product looks like real Bamboo Furniture. Plus it is long lasting, light, sturdy, easily cleanable. The Chairs and Tables come with a stable base, round end caps in aluminum, and is made meticulously to give a a brilliantly long lasting product.

Fence

Bamboo Fence is an architect's dream to make an impression for a warm look in its projects. The solution is here with Bamboolium. The Fence can have cutouts to incorporate branding, or can have light fittings on top. LED light can run in the hollow pipes, to accentuate the look further. Hidden screws are used to join the pipes. The end result is mind blowing!

Other Uses

Canopy

Visual Barrier

Fence

Pipe

Lantern
